Life Alert: Those that do more and talk less are usually more successful in life.

## Flooring Flashes:

1. The FCIF (Floor Covering Industry Foundation) a non-profit institution stands ready to help those in the flooring industry who have suffered a major illness and need financial assistance. Contact Andrea Blackbourn (ablackbourn@fcif.org) if you need assistance with medical bills, prescriptions, housing, food, etc. due to a life changing event that occurred because of a medical misfortune.
2. *I agree with Catalina Research's recent forecasts that the wood, laminate and soft flooring segments of the flooring industry will experience a negative sales year in 2019.
3. *Luxury vinyl tile products will be the catalyst for this years increase in sales in flooring.
4. *Lumber Liquidators has agreed to pay a $\$ 33 \mathrm{M}$ penalty for misleading investors about formaldehyde-laced laminate flooring from China.
5. *I estimate that all flooring products will increase only $3 \%$ to $4 \%$ in dollars in 2019 and that soft flooring products in dollars will represent less than $44 \%$ of total flooring sales for the year.

## Corporate Results-Flooring Manufacturers \& Retailers

1. *Lumber Liquidators reported a sales increase for the year of 2018 of $5.4 \%$. Their comp sales increased $2.6 \%$. Their net loss for the year was $\$ 54 \mathrm{M}$ compared to $\$ 38 \mathrm{M}$ last year. They have 413 locations compared to 393 last year. They forecast negative comp sales for the first quarter of 2019.

## Corporate Results/Builders, Home Centers:

1. *KB Home reported negative sales of $7 \%$ in their first quarter. Net income was $\$ 30 \mathrm{M}$ compared to a loss last year of $\$ 71 \mathrm{M}$. Backlog in units and dollars were down $6.9 \%$ and $16 \%$ respectively.
2. *Lennar reported a first quarter sales increase of $36 \%$. Net income increased $40 \%$. The large sales and net income increases were due to an acquisition. Their backlog in units and dollars were up significantly for the same reason.

## Positives Observations:

1. *The DJIA finished March with an $11.15 \%$ gain year to date. The S\&P was up $13.07 \%$ and the NASDAQ was up $16.49 \%$, both year to date numbers. We are in the $10^{\text {th }}$ year of a bull market, and this first quarter of 2019 was the best quarter in nearly ten years. See Exhibit IV.
2. *New home sales were up in February over last year by $0.6 \%$ and better than January by $4.9 \%$. See Exhibit II.
3. *Sales at U.S. retailers surged in March by the most in a year and a half, beating February numbers by $1.6 \%$. Auto sales were significantly up gaining $3.5 \%$. Department store sales were flat.
4. *The FRB left interest rates unchanged and stated that they are unlikely to raise rates in 2019.
5. *Interest rates on 30 -year mortgages have fallen to a 13 -month low. They are now at $4.06 \%$, the lowest since January 2018.
6. $*$ The U.S. economy grew at a $2.2 \%$ rate in the $4^{\text {th }}$ quarter. The original number was $2.6 \%$.
7. *Unemployment applications are at the lowest level since 1969, 50 years ago.
8. *Employer's added 196,000 jobs in March, and the unemployment rate stayed at a historic low of $3.8 \%$. This was the 102 nd straight month that U.S. employers added jobs. See Exhibit III.
9. *The U.S. trade deficit narrowed in February compared to January, due to a pickup in exports.
10. *Filings for unemployment benefits fell to a 49 year low.
11. *There was only 1 fatal aviation accident for every $2,520,000$ flights in 2018

## Neutral Observations:

1. *Median compensation for 132 chief executives of S\&P 500 companies reached $\$ 12.4 \mathrm{M}$ in 2018.
2. *Three companies control $80 \%$ of mobile telecoms. Three have $95 \%$ of credit cards. Four have $70 \%$ of airline flights.
3. *Based on a new Gallup poll, Hawaii, took the top spot for overall well-being and happiness for the $7^{\text {th }}$ year in a row. West Virginia ranked last for the $10^{\text {th }}$ consecutive year.
4. *In a ranking of 156 countries, Finland was ranked number 1 in global happiness for the $2^{\text {nd }}$ straight year.
5. *The best airline, according to Point's Guy, in 2019 is Delta and the worse is Frontier. American was number 6, United 4, Southwest 3, and Alaska $2^{\text {nd }}$.
6. *Aramco, a Saudi Arabia oil company, is now the world's most profitable company, earning $\$ 111$ billion in 2018. Apple use to be number one. Amazon is number five, following Alphabet, Exxon Mobil and Shell.
7. *The most expensive cities in the world to live in are: Hong Kong, Sydney, Los Angeles, London, Toronto, New York and Miami.
8. *One in 10 counties in the U.S. grew in the fiscal year that ended last June because of immigration-a significant increase from 2011-, which shows how immigration is shaping the nation as the population ages and the birthrate slows.
9. *It takes physicians 90 minutes at the end of every day to perform on their electronic health record systems.

## Negative Observations:

1. *Existing home sales in February were up compared to January by $11.8 \%$, however, they were down compared to February 2018 by $1.8 \%$. This was the 12 th consecutive month that sales were less than a year ago. See Exhibit I.
2. *Major auto makers posted declines of $2 \%$ in U.S. sales in the first quarter.
3. *The U.S. budget gap widened $39 \%$ in the fiscal year's first five months as tax revenues held steady and federal spending increased.
4. *Retailers have closed 5,994 stores so far this year compared to 5,864 closures for all of 2018. Mall vacancy rates are rising.
5. *The middle class is shrinking. In 1985 the aggregate income of the middle class was four times that of the richest group. Now it is about three times of the richest group.
6. *Household debt to GDP is the largest in Canada, United Kingdom, United States, and France.
7. *Americans now owe $\$ 1.3$ trillion in higher education debt.
8. *Another Mattress retailer (Mattress1One) has filed for Chapter 11 bankruptcy protection. They had at one point 300 stores.
9. *New York City, Los Angeles, and Chicago are reporting population declines.
10.*Sears is suing Eddie Lampert, his hedge fund and others associated with Sears, alleging bad-faith financial protections.
11.*The measles illness in the first three months of 2019 equals the full year of 2018.

## PREDICTION.

*The $4^{\text {th }}$ quarter of 2018 was not a good one for the flooring industry. And the first quarter of 2019 was not much better. Not helping flooring sales is the fact that existing home sales have been down for 12 consecutive months compared to a year earlier. The year 2019 will be a challenge for flooring retailers and manufacturers. Luxury vinyl tile will continue to grow strongly, but it will cannibalize sales growth from other flooring products. I am still predicting a $3 \%$ to $4 \%$ increase in overall sales for the flooring industry in 2019 , but it will not be easy. Most likely the $2^{\text {nd }}$ half of 2019 will be better than the first half.

## SUMMARY

*Even though many retail giants are closing stores (Macy's, Penney's Gap, Victoria's Secret, Payless Shoes, Tesla, etc.) the economists are predicting that overall retail business will increase $4.6 \%$ in 2019. I believe that will be a tough number to achieve. I see auto sales, department stores, and existing home sales struggling. And according to news reports the tax law change has not increased the cash flow in middle class hands that was originally hoped for. Hopefully, they are wrong.
